

## Excellent Professional-Collaboration-Engineer Updated 2022 Dumps With 100% Exam Passing Guarantee [Q18-Q38]

### Excellent Professional-Collaboration-Engineer Updated 2022 Dumps With 100% Exam Passing Guarantee Best way to practice test for Google Professional-Collaboration-Engineer

#### Professional Collaboration Engineer Exam Details

This exam is 2 hours long and comes in English and Japanese. It is worth noting that you have to pay \$200 to register for the exam. After that, on the appointed day, you will get access to the test, the questions of which are presented in the format of multiple select and multiple choice. There is no formal prerequisite for this exam and you can either take the online proctored exam or at the testing center near you. However, to be eligible, it is recommended to have 3+ years of industry experience along with 1+ years of Google workspace experience. Beyond that, you can get extensive knowledge about Google Workspace integration, collaboration, and adoption by preparing for the exam.

#### Registration procedure of the Google Professional Collaboration Engineer Exam

In order to apply for the Google Professional Collaboration Engineer, You have to follow these steps

Step1: Visit the Google Cloud Webassessor Website- Step4: Take the date of the exam, choose exam center and make further payment using payment method like credit/debit etc.- Step2: Sign in or sign up to your Google Cloud Webassessor account- Step3: Search for the exam name Google Professional Collaboration Engineer **NO.18** Cloud Kicks is customizing the security and sharing features of Salesforce Account Teams and has decided to implement a Custom Account Team object. Cloud Kicks wants the new implementation to utilize Apex and Visualforce on the Custom Account Team object, while still including all of the features of the existing account team.

An Architect is considering two different approaches for designing this enhancement.

Which two considerations are valid? (Choose two.)

- \* The need to maintain the AccountShare object based upon the Custom Account Team object data
- \* The need to dynamically create Criteria-Based Sharing rules with Custom Account Team object data
- \* The need to customize Account screens in Visualforce, as the AccountShare object CANNOT be maintained programmatically
- \* The need to synchronize the AccountTeamMember object with the Custom Account Team object data

**NO.19** Your company has decided to change SSO providers. Instead of authenticating into G Suite and other cloud services with an external SSO system, you will now be using Google as the Identity Provider (IDP) and SSO provider to your other third-party cloud services.

What two features are essential to reconfigure in G Suite? (Choose two.)

- \* Apps > add SAML apps to your domain.
- \* Reconfigure user provisioning via Google Cloud Directory Sync.
- \* Replace the third-party IDP verification certificate.
- \* Disable SSO with third party IDP.
- \* Enable API Permissions for Google Cloud Platform.

**NO.20** Your company moved to G Suite last month and wants to install Hangouts Meet Hardware in all of their conference rooms. This will allow employees to walk into a room and use the in-room hardware to easily join their scheduled meeting. A distributed training session is coming up, and the facilitator wants to make remote room joining even easier. Participants in remote rooms should walk into their room and begin receiving the training without having to take any actions to join the session.

How should you accomplish this?

- \* In the Admin Console, select the devices in Meeting Room Hardware, select Call, and Enter the meeting code.
- \* Room participants will need to start the meeting from the remote in the room.
- \* By adding the rooms to the Calendar invite, they will all auto-join at the scheduled time.
- \* Select Add Live Stream to the Calendar invite; all rooms added to the event will auto-join at the scheduled time.

**NO.21** When Opportunity Sharing is set to Private with Opportunity Teams enabled, which three user configuration option allows the Owner of the Opportunity to be changed? (Choose three.)

- \* Either a user with the Transfer Records permission or the System Administrator
- \* The current Opportunity Owner can transfer the Ownership
- \* The user specified as the Manager on the Owner's User Profile
- \* Any Opportunity Team Member on the current Opportunity
- \* An individual above the Opportunity Owner in the Role Hierarchy

**NO.22** What action should be taken to configure alerting related to phishing attacks?

- \* Set up a Token audit log event alert.
- \* Set up an Admin audit log event alert.
- \* Set up an email settings changed alert.
- \* Set up a suspicious login event alert.

**NO.23** Your large organization, 80,000 users, has been on Google for two years. Your CTO wants to create an integrated team experience with Google Groups, Teams Drives, and Calendar. Users will use a Google Form and Apps Script to request a new G-Team; A G-Team is composed of a Google Group and a Team Drive/ Secondary Calendar that is shared using that Google Group.

What two design decisions are required to implement this workflow securely? (Choose two.)

- \* The Apps Script will need to run as a G Suite admin.

- \* You will need a Cloud SQL instance to store G-Team data.
- \* The Google Form will need to be limited to internal users only.
- \* The Apps Script will need to run on a timed interval to process new entries.
- \* The Google Form will need to enforce Group naming conventions.

**NO.24** Ursa Major Solar needs to prevent Users in a Custom Sales Department Profile from deleting Opportunities.

What should an Architect do to achieve this goal?

- \* In the Object Permissions, remove the Opportunity Delete Permission from the User's Profile
- \* Ensure a Validation Rule is created that checks the User's Profile before allowing the IsDeleted flag to be set to True
- \* Override the Standard button with a Visualforce Page that warns them that they do NOT have permission to delete
- \* Ensure that the Delete button from the Opportunity Page Layout and Record Type settings is removed

**NO.25** How can you monitor increases in user reported Spam as identified by Google?

- \* Review post-delivery activity in the Email logs.
- \* Review user-reported spam in the Investigation Tool.
- \* Review spike in user-reported spam in the Alert center.
- \* Review post-delivery activity in the BigQuery Export.

**NO.26** Your-company.com is currently migrating to G Suite. Some legacy applications are still using an on-premises exchange server to send emails. You enabled the SMTP Relay service in Google to route the messages. During an investigation it was determined that these messages are not discoverable in Google Vault. For compliance reasons, the Legal team is requiring that these messages are retained and discoverable. What should you do?

- \* Add the Exchange Server's IP as an Inbound Gateway.
- \* Enable comprehensive mail storage.
- \* Create a Content Compliance rule to forward a copy of every message to a Google Group.
- \* Enable Gmail forwarding for exchange server.

**NO.27** Your company's compliance officer has requested that you apply a content compliance rule that will reject all external outbound email that has any occurrence of credit card numbers and your company's account number syntax, which is AccNo. You need to configure a content compliance rule to scan email to meet these requirements.

Which combination of attributes will meet this objective?

- \* Name the rule > select Outbound and Internal Sending > select If ANY of the following match > add two expressions: one for Simple Content Match to find AccNo, and one for predefined content match to select Credit Card Numbers > choose Reject.
- \* Name the rule > select Outbound > select If ANY of the following match > add two expressions:

one for Simple Content Match to find AccNo, and one for predefined content match to select Credit Card Numbers > choose Reject

- \* Name the rule > select Outbound and Internal Sending > select If ALL of the following match > add two expressions: one for Advanced Content Match to find AccNo in the Body, and one for predefined content match to select Credit Card Numbers > choose Reject.

- \* Name the rule > select Outbound > select If ALL of the following match > add two expressions:

one for Advanced Content Match to find AccNo in the Body, and one for predefined content match to select Credit Card Numbers > choose Reject.

**NO.28** A company has thousands of Chrome devices and bandwidth restrictions. They want to distribute the Chrome device updates over a period of days to avoid traffic spikes that would impact the low bandwidth network.

Where should you enable this in the Chrome management settings?

- \* Randomly scatter auto-updates.
- \* Update over cellular.
- \* Disable Auto update.
- \* Throttle the bandwidth.

**NO.29** User A is a Basic License holder. User B is a Business License holder. These two users, along with many additional users, are in the same organizational unit at the same company. When User A attempts to access Drive, they receive the following error: **&#8220;We are sorry, but you do not have access to Google Docs Editors.**

Please contact your Organization Administrator for access.&#8221; User B is not presented with the same error and accesses the service without issues.

How do you provide access to Drive for User A?

- \* Select User A in the Directory, and under the Apps section, check whether Drive and Docs is disabled. If so, enable it in the User record.
- \* In Apps > G Suite > Drive and Docs, select the organizational unit the users are in and enable Drive for the organizational unit.
- \* In Apps > G Suite, determine the Group that has Drive and Docs enabled as a service. Add User A to this group.
- \* Select User A in the Directory, and under the Licenses section, change their license from Basic to Business to add the Drive and Docs service.

**NO.30** Your company recently migrated to G Suite and wants to deploy a commonly used third-party app to all of finance. Your OU structure in G Suite is broken down by department. You need to ensure that the correct users get this app.

What should you do?

- \* For the Finance OU, enable the third-party app in SAML apps.
- \* For the Finance OU, enable the third-party app in Marketplace Apps.
- \* At the root level, disable the third-party app. For the Finance OU, allow users to install any application from the G Suite Marketplace.
- \* At the root level, disable the third-party app. For the Finance OU, allow users to install only whitelisted apps from the G Suite Marketplace.

**NO.31** Your company is in the process of deploying Google Drive Enterprise for your sales organization.

You have discovered that there are many unmanaged accounts across your domain. Your security team wants to manage these accounts moving forward.

What should you do?

- \* Disable access to all **&#8220;Other Services&#8221;** in the G Suite Admin Console.
- \* Use the Transfer Tool for unmanaged accounts to invite users into the domain.
- \* Use the Data Migration Service to transfer the data to a managed account.
- \* Open a support ticket to have Google transfer unmanaged accounts into your domain.

**NO.32** Security and Compliance has identified secure third-party applications that should have access to G Suite data. You need to restrict third-party access to only approved applications What two actions should you take? (Choose two.)

- \* Whitelist Trusted Apps
- \* Disable the Drive SDK
- \* Restrict API scopes
- \* Disable add-ons for Gmail

- \* Whitelist G Suite Marketplace apps

**NO.33** Your company works regularly with a partner. Your employees regularly send emails to your partner's employees. You want to ensure that the Partner contact information available to your employees will allow them to easily select Partner names and reduce sending errors.

What should you do?

- \* Educate users on creating personal contacts for the Partner Employees.
- \* Add a secondary domain for the Partner Company and create user entries for each Partner user.
- \* Create shared contacts in the Directory using the Directory API.
- \* Create shared contacts in the Directory using the Domain Shared Contacts API.

Explanation

**NO.34** Your company has just received a shipment of ten Chromebooks to be deployed across the company, four of which will be used by remote employees. In order to prepare them for use, you need to register them in G Suite.

What should you do?

- \* Turn on the Chromebook and press Ctrl+Alt+E at the login screen to begin enterprise enrollment.
- \* In Chrome Management | Device Settings, enable Forced Re-enrollment for all devices.
- \* Turn on the chromebook and log in as a Chrome Device admin. Press Ctrl+Alt+E to begin enterprise enrollment.
- \* Instruct the employees to log in to the Chromebook. Upon login, the auto enrollment process will begin.

**NO.35** Your company has an OU that contains your sales team and an OU that contains your market research team.

The sales team is often a target of mass email from legitimate senders, which is distracting to their job duties.

The market research team also receives that email content, but they want it because it often contains interesting market analysis or competitive intelligence. Constant Contact is often used as the source of these messages. Your company also uses Constant Contact for your own mass email marketing. You need to set email controls at the Sales OU without affecting your own outgoing email or the market research OU.

What should you do?

- \* Create a blocked senders list as the Sales OU that contains the mass email sender addresses, but bypass this setting for Constant Contact emails.
- \* Create a blocked senders list at the root level, and then an approved senders list at the Market Research OU, both containing the mass email sender addresses.
- \* Create a blocked senders list at the Sales OU that contains the mass email sender addresses.
- \* Create an approved senders list at the Market Research OU that contains the mass email sender addresses.

**NO.36** What action should be taken to configure alerting related to phishing attacks?

- \* Set up a Token audit log event alert.
- \* Set up an Admin audit log event alert.
- \* Set up an email settings changed alert.
- \* Set up a suspicious login event alert.

**NO.37** Your company uses a whitelisting approach to manage third-party apps and add-ons. The Senior VP of Sales

& Marketing has urgently requested access to a new Marketplace app that has not previously been vetted. The company's

Information Security policy empowers you, as a G Suite admin, to grant provisional access immediately if all of the following conditions are met:

- \* Access to the app is restricted to specific individuals by request only.
- \* The app does not have the ability to read or manage emails.
- \* Immediate notice is given to the Infosec team, followed by the submission of a security risk analysis report within 14 days.

Which actions should you take first to ensure that you are compliant with Infosec policy?

- \* Move the Senior VP to a sub-OU before enabling Marketplace Settings > Allow Users to Install Any App from G Suite Marketplace;
- \* Confirm that the Senior VP's OU has the following Gmail setting disabled before whitelisting the app:  
Let users delegate access to their mailbox;
- \* Add the Marketplace app, then review the authorized scopes in Security > Manage API client access.
- \* Search the G Suite support forum for feedback about the app to include in the risk analysis report.

**NO.38** Your company is in the process of deploying Google Drive Enterprise for your sales organization. You have discovered that there are many unmanaged accounts across your domain. Your security team wants to manage these accounts moving forward.

What should you do?

- \* Disable access to all Other Services in the G Suite Admin Console.
- \* Use the Transfer Tool for unmanaged accounts to invite users into the domain.
- \* Use the Data Migration Service to transfer the data to a managed account.
- \* Open a support ticket to have Google transfer unmanaged accounts into your domain.
