### Prerequisites

The CompTIA PK0-004 certification exam does not have any official prerequisites that you need to meet before going for it. However, there are some recommendations to help the candidates optimize their performance in the test. This qualifying exam will

be perfect for the individuals with a minimum of twelve months of project management experience. Those business professionals who manage small projects or offer support in the coordination of projects are also a target audience for this test. Also, it is recommended that the applicants have competence in planning and managing various projects from the initiation to the completion stage. It is critical to understand the topics of the exam before attempting it. The details of the objectives and their domains can be found on the official webpage.

### Peculiar Features

The PK0-004 certification exam is made up of a maximum of 95 questions that are presented in the multiple-choice and drag and drop formats. To schedule the session, you need to sign up with Pearson VUE, a CompTIA testing partner. You can choose from two options: an online proctored exam that you can take from your home or office vs. an onsite test at one of the Pearson VUE centers located around the globe. The exam is delivered in the English and Japanese languages. To pass it successfully, you need to score 710 points on a scale of 100-900. CompTIA PK0-004 costs \$329.

To prepare for this certification exam, you can take advantage of the training tools offered on the CompTIA website. These include study guides, in-classroom or online instructor-led training as well as self-paced online courses.

After completing the CompTIA PK0-004 test, you will be awarded the certificate that you can add to your resume. The CompTIA Project+ certification is valid for a lifetime and does not require recertification.
